## Power of the Soul

### Until You are Fully Committed

When-ever there is a hesitation, to hold and draw back, by this thought form-action form (mental emotional reaction- generating reaction containment) this will always create time - mind - space and cause in-effective-ness, by lack of faith. Concerning all actions of creation - initiative there is one element of truth - it dis-engages the creative process due to lack of faith - by re-creating an old self limiting pattern.

The moment one totally and fully commits oneself completely, creation moves in to complete your soul's light and its co-creative process. Igniting all sorts of mystical and magical events that will occur to assist one in their process of creation that would never otherwise have taken place.

"Whatever you can do, or dream, desire with passion you can, co-create it ."Boldness" has "genius", and your "soul's spiritual power", that contain the magic to create it."

The light and the creative force of all;  
ALL is ONE

Hear ye, O Children of  
Light, seek not the illusions of  
the world and its glitter, for it holds  
back your Golden Light from your  
embrace of your beingness.

In your hour, this day in your time in this  
mind-time illusionary space, allow my Light  
to encompass the totality of your world.

For it is in your absorption of my light that you may grow  
and nourish the totality of your beingness. All is in order.  
As I have therefore planned for your safekeeping,  
I now declare is now at hand. Be at peace with your world,  
O Children of Light, for very soon you will be encompassed  
within the love of my Light. Hear ye, O Children of Light,  
for now this day in your time be at peace within the  
stillness that lay hidden in this space of your time.  
In our words, for now, look not beyond. Behold,  
but look within, for there lay the stillness, and  
there I be until you find your way in my Light.

O Children of Light, try and be still, for  
now is the time for you to find your  
Light, this day in your time.
